

Future Pirates (of our Future)

Voice of the People, you say you are one
Yet, what you do is for yourself

Changes for the better, there are none

Needs of the community you put on the shelf

Self-appointed politician
Megalomaniac patrician
Avricious, carnivorous.... Pirates of our Future

Never caring care for the people's plight

With blinkered vision and stunted sight

money money greed and power

what will it mean in your final hour

Self-appointed politician
Megalomaniac patrician
